

THINKING ABOUT STARTING A MEDICARE ADVANTAGE PRESCRIPTION DRUG (MAPD) PLAN FOR 2019?

MAPD Plan can be the Foundation for Sustainable Value-Based Care

Unlike shared savings contracts, MAPD offers access to 100% of the premium dollar

Complete claims data available to the delivery network to support population health management

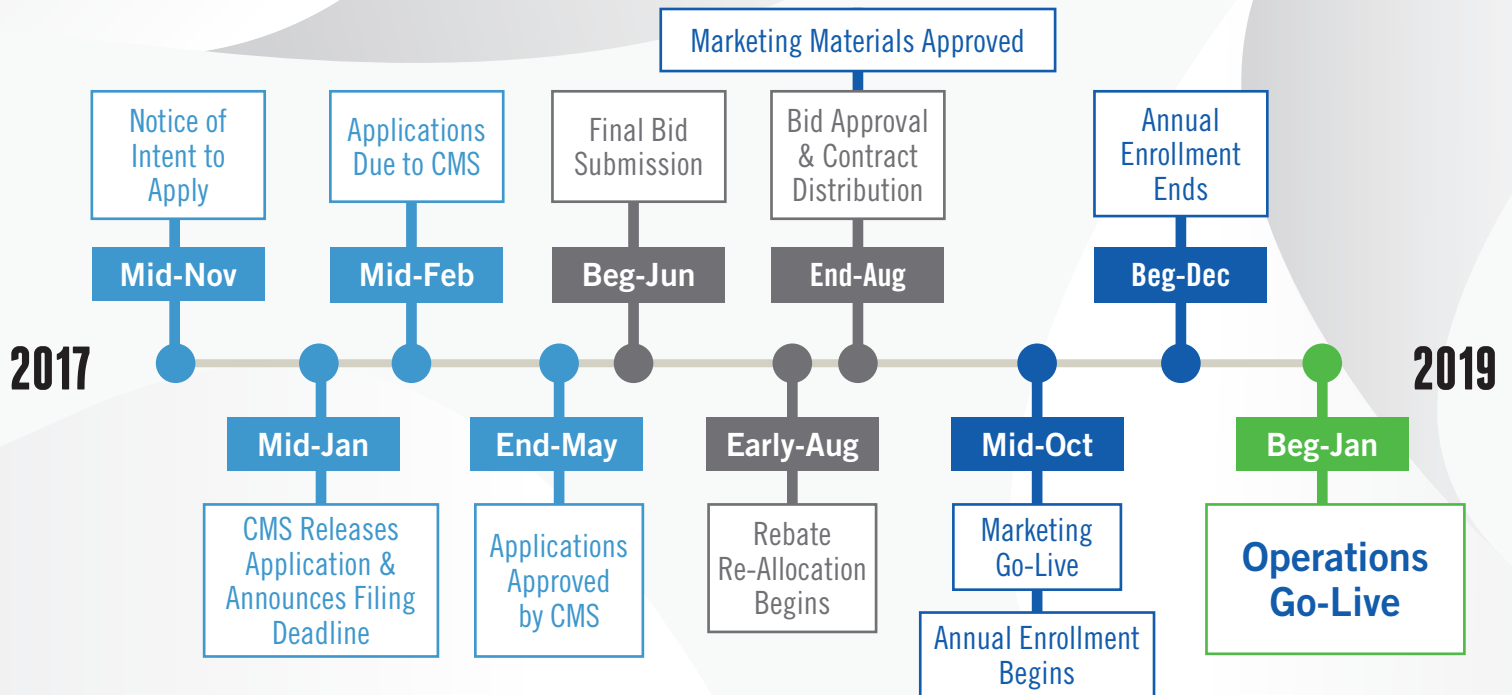

Total transparency into health plan operations & finances

Largest opportunity to improve quality and reduce cost of care

MAPD Operationalization Timeline

Key Considerations for MAPD Success

1

18 months or more may be required to successfully operationalize a plan

2

Once live, the plan may have 3 years to earn a 4 Star rating or lose access to CMS bonus payments & benefit enhancing rebates

3

Deep operational expertise in both, plan operations & population health management, are critical to plan success

As a strategic partner to some of America's most Successful Provider and Payer organizations, Lumeris provides advisory, operational and technology solutions for successful stand-up and operation of MAPD plans.
